

REACH DECLARATION OF CONFORMITY (2024)

We hereby certify that our articles fully comply with the requirements of the European Union Regulation (EC) 1907/2006 relating to the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH):

1. According to the structure of REACH regulation, our company is a manufacturer of "ARTICLES". We do not produce "substances" or "preparations", and our articles do not involve the intentional release of substances. No registration, or pre-registration, or authorization is required for the product we provide.
2. Regarding the requirements of Article 33 of REACH: "Obligation to communicate information on substances in articles" We declare that none of the SVHC (Candidate List of Substances of Very High Concern for authorization published in accordance with Article 59 of REACH regulation) is present in our articles in a concentration equal to, or greater than 0.1%
3. Regarding the requirements of Article 67 of REACH: A substance on its own, in a preparation or in an article, listed in Annex XVII, subject to restrictions on use must not be placed on the European market or used unless you comply with the conditions of that restriction. We declare that none of the substances subject to restricted use are present in our product.

ECHA has added six substances to the Candidate list. The substances are: -2,4,6-tri-tert-butylphenol CAS 732-26-3 Toxic for reproduction, PBT: it is used in the formulation of combustible products. 2-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol CAS 3147-75-9 PvB: it is mainly used in air fresheners, coating products, adhesives and sealants, lubricants and greases, polishes and waxes and washing and cleaning products. 2-(dimethylamino)-2-[(4-methylphenyl)methyl]-1-[4-(morpholin-4-yl)phenyl]butan-1-one CAS 119344-86-4 Toxic for reproduction: mainly used in inks and toners, paint products. Bumetrizole CAS 3896-11-5 vPvB: it is mainly used in coating products, adhesives and sealants and washing and cleaning products. Products of the oligomerization and alkylation reaction of 2-phenylpropene and phenol EC 700-960-7-vPvB: it is mainly used in adhesives and sealants, coating products, fillers, putties, plasters, modeling clay, inks and toners and polymers. Dibutyl phthalate (updated entry) CAS 84-74-2 Environmental endocrine disrupting properties: used in metalworking fluids, washing and cleaning products, laboratory chemicals, and polymers.

Since the REACH regulation is updated frequently, for subsequent major changes, such as the inclusion of SVHC substances in Annex XIV, the inclusion of restricted substances in Annex XVII, our Company will evaluate subsequent revisions over time and update the statement, to reflect these changes.

The Company has asked the major suppliers to verify, and be informed, about their position towards the REACH regulation, regarding the chemical substances present in the Candidate List updated to 01/23/2024. Trancerie Emiliane S.p.A. proceeds with monitoring and undertakes to communicate to customers any changes in this regard.

Our internal REACH contact person, Mr. Di Grandi Vincenzo (v.digrandi@trancerieemiliane.it), is at your disposal for any further clarifications on this matter.

Parma 01/02/2024
